3. Please attach files to describe a program of study that outlines the courses and experiences required for candidates to complete the program. The program of study must include course titles. (This information may be provided as an attachment from the college catalog or as a student advisement sheet.)

4. This system will not permit you to include tables or graphics in text fields. Therefore any tables or charts must be attached as files here. The title of the file should clearly indicate the content of the file. Word documents, pdf files, and other commonly used file formats are acceptable.

5. Candidate Information
   Directions: Provide three years of data on candidates enrolled in the program and completing the program, beginning with the most recent academic year for which numbers have been tabulated. Report the data separately for the levels/tracks (e.g., baccalaureate, post-baccalaureate, alternate routes, master's, doctorate) being addressed in this report. Data must also be reported separately for programs offered at multiple sites. Update academic years (column 1) as appropriate for your data span. Create additional tables as necessary.

(2) CAEP uses the Title II definition for program completers. Program completers are persons who have met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript, or other written proof of having met the program's requirements.

6. Faculty Information
   Directions: Complete the following information for each faculty member responsible for professional coursework, clinical supervision, or administration in this program. (Please refer to the footnotes for clarification)

(3) For example, PhD in Curriculum & Instruction, University of Nebraska.
(4) For example, faculty, clinical supervisor, department chair, administrator
(5) For example, professor, associate professor, assistant professor, adjunct professor, instructor
(6) Scholarship is defined by CAEP as a systematic inquiry into the areas related to teaching, learning, and the education of teachers and other school personnel.
   Scholarship includes traditional research and publication as well as the rigorous and systematic study of pedagogy, and the application of current research findings in new settings. Scholarship further presupposes submission of one's work for professional review and evaluation.
(7) Service includes faculty contributions to college or university activities, schools, communities, and professional associations in ways that are consistent with the institution and unit's mission.
(8) For example, officer of a state or national association, article published in a specific journal, and an evaluation of a local school program.
(9) Briefly describe the nature of recent experience in P-12 schools (e.g. clinical supervision, in-service training, teaching in a PDS) indicating the discipline and grade level of the assignment(s). List current P-12 licensure or certification(s) held, if any.
In this section, list the 6-8 assessments that are being submitted as evidence for meeting the NAGC/CEC standards. All programs must provide a minimum of six assessments. If your state does not require a state licensure test in the content area, you must substitute an assessment that documents candidate attainment of content knowledge in #1 below. For each assessment, indicate the type or form of the assessment and when it is administered in the program.

(10) Identify assessment by title used in the program; refer to Section IV for further information on appropriate assessment to include.
(11) Identify the type of assessment (e.g., essay, case study, project, comprehensive exam, reflection, state licensure test, portfolio).
(12) Indicate the point in the program when the assessment is administered (e.g., admission to the program, admission to student teaching/internship, required courses [specify course title and numbers], or completion of the program).

Assessment #8: Additional assessment that addresses NAGC/CEC standards (optional)
For each NAGC/CEC standard on the chart below, identify the assessment(s) in Section II that address the standard. One assessment may apply to multiple NAGC/CEC standards.

### 1. CONTENT STANDARDS

<table>
<thead>
<tr>
<th>Standard 1: Learner Development and Individual Learning Differences. Beginning gifted education professionals understand the variations in learning and development in cognitive and affective areas between and among individuals with gifts and talents and apply this understanding to provide meaningful and challenging learning experiences for individuals with exceptionalities.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standard 2: Learning Environments. Beginning gifted education professionals create safe, inclusive, and culturally responsive learning environments so that individuals with gifts and talents become effective learners and develop social and emotional well-being.</td>
</tr>
<tr>
<td>Standard 3: Curricular Content Knowledge. Beginning gifted education professionals use knowledge of general and specialized curricula to advance learning for individuals with gifts and talents.</td>
</tr>
<tr>
<td>Standard 5: Instructional Planning and Strategies. Beginning gifted education professionals select, adapt, and use a repertoire of evidence-based instructional strategies to advance the learning of individuals with gifts and talents.</td>
</tr>
<tr>
<td>Standard 6: Professional Learning and Ethical Practice. Beginning gifted education professionals use foundational knowledge of the field and professional ethical principles and programming standards to inform gifted education practice, to engage in lifelong learning, and to advance the profession.</td>
</tr>
</tbody>
</table>
**Standard 7: Collaboration.** Beginning gifted education professionals collaborate with families, other educators, related-service providers, individuals with gifts and talents, and personnel from community agencies in culturally responsive ways to address the needs of individuals with gifts and talents across a range of learning experiences.
DIRECTIONS: The 6-8 key assessments listed in Section II must be documented and discussed in Section IV. Taken as a whole, the assessments must demonstrate candidate mastery of the SPA standards. The key assessments should be required of all candidates. Assessments and scoring guides/rubrics and data charts should be aligned with the SPA standards. This means that the concepts in the SPA standards should be apparent in the assessments and in the scoring guides/rubrics to the same depth, breadth, and specificity as in the SPA standards. Data tables should also be aligned with the SPA standards. The data should be presented, in general, at the same level it is collected. For example, if a rubric collects data on 10 elements [each relating to specific SPA standard(s)], then the data chart should report the data on each of the elements rather that reporting a cumulative score.

In the description of each assessment below, the SPA has identified potential assessments that would be appropriate. Assessments have been organized into the following three areas to be aligned with the elements in CAEP Standard 1:
• Content knowledge (Assessments 1 and 2)
• Pedagogical and professional knowledge, skills and dispositions (Assessments 3 and 4)
• Focus on student learning (Assessment 5)

Note that in some disciplines, content knowledge may include or be inextricable from professional knowledge. If this is the case, assessments that combine content and professional knowledge may be considered "content knowledge" assessments for the purpose of this report.

For each assessment, the compiler should prepare one document that includes the following items:

(1) A two-page narrative that includes the following:
a. A brief description of the assessment and its use in the program (one sentence may be sufficient);
b. A description of how this assessment specifically aligns with the standards it is cited for in Section III. Cite SPA standards by number, title, and/or standard wording.
c. A brief analysis of the data findings;
d. An interpretation of how that data provide evidence for meeting standards, indicating the specific SPA standards by number, title, and/or standard wording;
and

(2) Assessment Documentation
e. The assessment tool itself or a rich description of the assessment (often the directions given to candidates);
f. The scoring guide/rubric for the assessment; and
g. Charts that provide candidate data derived from the assessment.

The responses for e, f, and g (above) should be limited to the equivalent of five text pages each, however in some cases assessment instruments or scoring guides/rubrics may go beyond five pages.

Note: As much as possible, combine all of the files for one assessment into a single file. That is, create one file for Assessment #4 that includes the two-page narrative (items a – d above), the assessment itself (item e above), the scoring guide (item f above, and the data chart (item g above). Each attachment should be no larger than 2 mb. Do not include candidate work or syllabi. There is a limit of 20 attachments for the entire report so it is crucial that you combine files as much as possible.

1. State licensure tests or professional examinations of content knowledge. NAGC/CEC standards
addressed in this entry could include all of the standards. If your state does not require licensure tests or professional examinations in the content area, data from another assessment must be presented to document candidate attainment of content knowledge. Provide assessment information (items 1-5) as outlined in the directions for Section IV (Answer Required)

Provide assessment information as outlined in the directions for Section IV

2. Assessment of content knowledge in gifted education. NAGC/CEC standards addressed in this assessment could include but are not limited to Standards 1, 2 and 6. Examples of assessments include comprehensive examinations; GPAs or written grades, written interpersonal/presentational tasks; capstone projects or research reports addressing cross-disciplinary content; philosophy of teaching statement that addresses the role of culture, literature, and cross-disciplinary content; and other portfolio tasks\(^{(13)}\). (Answer Required)

Provide assessment information as outlined in the directions for Section IV

\(^{(13)}\) A portfolio is a collection of candidate work. The information to be reported here requires an assessment of candidates' content knowledge as revealed in the work product contained in a portfolio. If the portfolio contains pieces that are interdependent and the portfolio is evaluated by faculty as one assessment using a scoring guide, then the portfolio could be counted as one assessment. Often the assessment addresses an independent product within the portfolio rather than the complete portfolio. In the latter case, the assessment and scoring guide for the independent product should be presented.

3. Assessment that demonstrates candidates can effectively plan classroom-based instruction (e.g., unit plan) or activities for other roles as gifted and talented educators. NAGC/CEC standards that could be addressed in this assessment include but are not limited to 3, 4, and 5. Examples of assessments include the evaluation of candidates' abilities to develop lesson or unit plans. An example would be a differentiated unit of instruction (Answer Required)

Provide assessment information as outlined in the directions for Section IV

4. Assessment that demonstrates candidates' knowledge, skills, and dispositions are applied effectively in practice. NAGC/CEC standards that could be addressed in this assessment include but are not limited to 2, 3, 4, 5, 6 and 7. The assessment instrument used in student teaching and the internship or other clinical experiences should be submitted (Answer Required)

Provide assessment information as outlined in the directions for Section IV

5. Assessment that demonstrates candidate effects on student learning. NAGC/CEC standards that could be addressed in this assessment include but are not limited to 2, 3, 4, 5, and 7. Examples of assessments include those based on student work samples, portfolio tasks, case studies, follow-up studies, and employer surveys. (Answer Required)

Provide assessment information as outlined in the directions for Section IV

6. Additional assessment that addresses NAGC/CEC standards. Examples of assessments include evaluations of field experiences, case studies, portfolio tasks, licensure tests not reported in #1, and follow-up studies. (Answer Required)

Provide assessment information as outlined in the directions for Section IV

7. Additional assessment that addresses NAGC/CEC standards. Examples of assessments include evaluations of field experiences, case studies, portfolio tasks, licensure tests not reported in #1, and follow-up studies. (Answer Optional)

Provide assessment information as outlined in the directions for Section IV

8. Additional assessment that addresses NAGC/CEC standards. Examples of assessments include evaluations of field experiences, case studies, portfolio tasks, licensure tests not reported in #1, and follow-up studies. (Answer Optional)

Provide assessment information as outlined in the directions for Section IV
1. Evidence must be presented in this section that assessment results have been analyzed and have been or will be used to improve candidate performance and strengthen the program. This description should not link improvements to individual assessments but, rather, it should summarize principal findings from the evidence, the faculty's interpretation of those findings, and changes made in (or planned for) the program as a result. Describe the steps program faculty has taken to use information from assessments for improvement of both candidate performance and the program. This information should be organized around (1) content knowledge, (2) professional and pedagogical knowledge, skill, and dispositions, and (3) student learning.

(Response limited to 12,000 characters)
